“ Ross and I were roommates our last two years at U of M. Most fun person ever. His 55 Ford, Old Blue, carried us to Saugautk after graduation and made it about 50 yards into Lake Michigan before it began to sink. Ross was proud of the fact that he was the first Civil Engineering grad to graduate with an exact 2.0000 average, the minimum required. I remember helping him convince a prof to lower a final grade from B to C so he achieved the perfect 2.0000.

Never saw Ross after 1963 but know that the Bart system would never have had to have drivers if they hadn't hired Ross. Sorry we never got together over the years but will remember the two years we roomed together with fondness,
