“Gloria was my best friend for the last 4 years - we were email friends - with me in Tucson and her in Michigan. She was so dear to me. I was already collecting bisque figurines and she got me started collecting dolls. But we had so much more in common that we shared. I will miss her sharp wit and humor, and will always cherish the friendship we shared. I know she is in a better place and in no pain now. That is a blessing for her. I feel I know Beth and Paul very well, and the one GD whose name I cannot recall now. She also shared your lives with me. I know you will miss both your mom and dad immensely. It is very hard to lose them, even when you know they are going to a better place. If you could contact me by personal email, Beth, I would really appreciate knowing a little more about her final days since she could not correspond after May. My love and sympathy to you.
