“ I have so many memories with John. He was always fun to be around. One of the memories of the thousands I have of him that made me laugh really hard was he came over to my house after he bought a Dodge Omni that was a stick shift, he pulled in and was so proud he bought his own car(I was proud of him too). So he started showing me the car and said “it would be a lot better if it had reverse” I said “it does you have to push the shifter down and into first”. He looked at me and said “I have been pushing this damn car out of parking spots since I got it son of a b****”! we both looked at each other and started laughing.
